

## Coin comprehension

Name: \_\_\_\_\_

Read the 'Robots at the Mint' fact sheet (available on the Royal Australian Mint website [ramint.gov.au](http://ramint.gov.au)) and answer the following questions.

1. How many coins can the Mint produce in one day?

---

2. What are the names of the two Mint robots?

---

---

3. What does AGV stand for?

---

4. Which robot has the job of lifting heavy drums of coins?

---

5. Why do you think the Mint has robots to help produce coins?

---

---

---

---

---

6. Why are there tracks worn into the factory's wooden floor?

---

---

---

7. How would the coin production process be different if there were no robots or AGVs?

---

---

---
